DSC CONSOLIDATES SUBSIDIARIES **CORPORATE CONSOLIDATION LEADS TO MORE RESOURCES & GLOBAL OPPORTUNITIES**

RESERVE, LA – April 21, 2010

Dredging Supply Company, Inc., as the public knows the company, will now operate under a parent company, DSC Dredge LLC as a result of a recent corporate consolidation. Prior to the merger, the company was affiliated with many subsidiaries, all focusing on manufacturing and servicing dredges, support equipment, and parts. DSC Dredge LLC was created as an umbrella company to encompass all the sub-companies, including Dredging Supply Company, Inc., Best Equipment, M&S Equipment, Better Dredges, Inc., W&S Dredge Manufacturer, Reliable Gulf South LLC, Dredge Surplus, and Dragados Sud-America (DSA).

The idea behind consolidating all companies under one parent company is to allow the corporation to utilize all its resources in their entirety and to open the door for more global opportunities. Under one brand, DSC Dredge LLC can now offer dredging solutions ranging from fully automated, touch screen operated dredges, to mechanically driven dredges operated by actual levers. Dredging Supply Company, Inc. has become known for its technically advanced products, which sometimes exceed customer's needs when shopping for a mechanical dredge. W&S Dredge Manufacturer and M&S Equipment both offer a mechanically driven product without sacrificing DSC's unmatched quality and customer service.

Bill Wetta, CEO, comments "The consolidation is an effective way for us to pool our resources together, improving efficiencies across our purchasing, engineering, and field service departments. Now our different divisions can focus primarily on what they do best and we can better serve economies of various sizes. I wish we would have made this decision sooner!"

The consolidation is viewed as a positive change and the companies are excited for new opportunities and added efficiencies within the organization. DSC customers can expect more resourceful operations from the company and will see a new brand in use. The officers for DSC Dredge LLC include: Bill Wetta as CEO, Bob Wetta as President, David Miller as COO and Kevin Dolan as CFO.

DSC Dredge LLC, the world's leading designer and manufacturer of cutter suction dredges and underwater pump mining dredges, has major manufacturing facilities located in Reserve, LA, Poplarville, MS, and Greenbush, MI. For more information about the company and their products and services, please visit them at www.dscdredge.com.
